## Just Pour It On and Brush It Flat

Now it is easy to have perfect waterproof roof. Simply coat them  
with Stormtight. Anyone can apply Stormtight who can handle a  
brush. None of the bother and expense of laying roll roofing or  
putting down shingles or metal. And Stormtight costs much less.  
Two important services rendered by the National Roof Protectors

**Stormtight**  
FOR USE ON ANY ROOF IN ANY WEATHER

1st—One application of Stormtight will keep your roof waterproof for  
years, thus displacing roof paints which quickly dry out and crack.  
Stormtight remains elastic and impervious, and therefore keeps  
roof waterproof without retreating.

2nd—Old leaky roofs heretofore considered beyond repair can now be  
made as good as new. Thus Stormtight saves the great expense of  
tearing off the old roof and putting on a new one.

Apply Stormtight on the tin, paper, composition  
or canvas roofs of homes, factories, barns, garages,  
outbuildings, etc., and your roof troubles and  
roof expense are over.

Buy of your local dealer in gallons or barrels.

### AUTOS ALL BROKE, NO ONE HURT

Two Motorists Escape  
When Four Machines Play  
Pranks Near Monrovia

(SPECIAL REPORTER.)  
MONROVIA, Oct. 5.—Four per-  
sons were thrown about the pave-  
ment of Santa Anita avenue and  
four automobiles were wrecked  
within a block of each other this  
afternoon in two accidents. Each  
was chiefly remarkable for the  
fact that the participating auto-  
mobiles were reduced to kindling  
wood and badly twisted metal  
while the drivers and passengers  
escaped without injury.

The first smash was caused by  
a Perfection bread truck driven  
by J. Danielson of 443 Maple ave-  
nue. Glendale collector with a  
touring car driven by Mrs. Ella  
Demark of 78 Yale street, Pan-  
dora. Mrs. Demark had four wom-  
en in the car who sent forth a  
series of piercing screams that  
witnesses believed several were  
mortally hurt and turned in a  
hurry call to police headquarters  
at the Arcadia City Hall.

Marshall M. J. Miller and De-  
puty Med Cayer answered the tele-  
phone message and started for the  
scene in Cayer's car. At Hunting-  
ton Drive and Santa Anita, a block  
above the scene of the first acci-  
dent, the officers car, going at a  
high rate of speed, struck a tour-  
ing car driven by J. P. Severn of  
Crown Avenue.

The police machine turned a  
complete somersault and landed  
bottom side up with both officers  
planned beneath it.

The car from Miller and his deputy,  
supporting both dead but found  
neither were injured.

PASADENA VOTERS  
DECIDE POLICY

SCHOOL BOARD BOUND BY  
EXPRESSED DESIRE  
OF PATRONS

(SPECIAL REPORTER.)  
PASADENA, Oct. 5.—Pasadena  
high school district voted over-  
whelmingly today in favor of a  
system of junior high schools and  
in favor of an additional senior  
high school plan, and rejected by  
a decisive vote propositions to  
double the existing high school  
and to establish a new senior  
high school. The election carried  
no bond issue but was purely on  
questions of policy.

The board of education has  
agreed to be bound by the deci-  
sion of the voters on the establish-  
ment of the junior system and on  
enlarging the present high school.  
These questions were submitted at  
the request of the Chamber of  
Commerce in pursuance of an  
agreement by which that body  
supported the elementary school  
bond election last summer.

The questions pertaining to  
abandoning the present junior  
high school and establishing a new  
senior high were merely advisory.  
There are no funds available now  
for a new senior plant.

With a few small precincts  
misleading, but not enough to affect  
the result, the vote stood: For ju-  
nior high schools, yes, 761; no, 226.  
Doubling senior high, yes, 117;  
no, 648. Combining the two, yes,  
763; no, 187. Additional senior  
high, yes, 498; no, 256. Pasadena  
High School district includes Alh-  
ameta, Sierra Madre and some  
smaller communities.

Masked Bandits  
Rob Man, Sister  
of Jewel, Cash

By a "Times" Staff Correspondent  
LONG BEACH, Oct. 5.—Masked  
bandits robbed Leo Barlich of Los  
Angeles and his sister, Mrs. Luetia  
Williams, of 1115 E. 1st and a dis-  
tinct ring shortly before daylight  
this morning, according to a report  
made to the Long Beach police to-  
day. The robbery occurred on the  
boulevard north of this city while  
Barlich and his sister were riding  
in Barlich's automobile to their  
summer apartment here.

At a turn in the road Barlich  
lowered down his motor and the  
bandits, leaping upon the running  
board, climbed into the tonneau  
of the machine and ordered the  
driver to stop. Barlich told police  
they searched the driver, robbing  
him of \$45. From Mrs. Williams  
the bandits took \$50 and a ring  
valued at several hundred dol-  
lars, police reports show.

FUNERAL RITES TODAY

FORMER ALL-AMERICAN GRID  
STAR'S CAREER CUT SHORT  
BY DEATH

By a "Times" Staff Correspondent  
PASADENA, Oct. 5.—Funeral  
rites for Harry R. Schlauderman, Jr.,  
former All-American football star  
who died at his home, 583 North  
Marengo avenue, last night of  
pneumonia.

He was 23 years old, born in De-  
catur, Ill., and lived in Pasadena  
sixteen years. He graduated from  
University of Illinois in 1920, and  
played on the varsity team his last  
two years and being placed on  
Walter Camp's all-star organiza-  
tion. He was a star of Pasadena  
High School in his school days.

His parents, Mr. and Mrs. Harry  
R. Schlauderman, and two brothers,  
Robert and Carl, survive him. Fu-  
neral services, in charge of Ives and  
Warren, will be private, at the late  
home.

### SHOT MAN IN SELF DEFENSE

Ontario Rancher Wins  
Case at Preliminary Hear-  
ing in Justice Court

(SPECIAL REPORTER.)  
ONTARIO, Oct. 5.—Moreno  
Ortiz, aged 31, who was arrested  
last week on a charge of assault  
with a deadly weapon with intent  
to commit murder after he was  
said to have shot Raymond Moreno,  
aged 30, in the back during an  
altercation in the Cucamonga  
ranching district to the east of On-  
tario, was discharged this after-  
noon following his preliminary ex-  
amination in Judge W. C. Belden's  
court.

Testimony introduced at the  
hearing was to the effect that Ortiz  
fired in self-defense after Moreno  
had attacked him with rocks and  
a knife, while he was engaged with  
a member of a ranch posse.

This encounter is said to have  
followed a dispute between Ortiz,  
Moreno and the latter's cousin, Al-  
drew Moreno, the preceding night  
in which Ortiz took revolvers away  
from the other two after they were  
said to have created a disturbance  
while under the asserted influence  
of liquor.

At first thought that Ortiz  
had made a quick recovery, Dep. Dist. Atty. M. O. Hart ap-  
peared for the prosecution this  
afternoon.

PLEASURES CO-EDS

Speaker Says Flapper no Menace  
to America

(SPECIAL REPORTER.)  
ONTARIO, Oct. 5.—When G.  
Bromley Oxnam of Los Angeles de-  
clared in an address before a joint  
assembly of 1000 Chaffey High  
School and Junior College pupils at  
Chaffey Auditorium that no menace  
to the future of America was to be  
found in the present-day "Flap-  
per," he struck a popular note  
among the fair co-eds of the in-  
stitution and his speech was the  
subject of much favorable comment  
here generally today.

Mr. Oxnam, who was a member  
of the commission which made a  
tour of European countries on a  
reconstruction survey shortly fol-  
lowing the close of the war, was  
who is a speaker of considerable  
ability, chose as his subject for his  
address, "The Flapper and the Fu-  
ture of America."

The speaker declared that the  
real danger to the "souls of Amer-  
ica" was not to be found in the  
"dapper," in the alleged corrupt  
morals of the people and other  
things which he described as a  
given an undue amount of atten-  
tion at the present time, but among  
gigantic organizations which  
were not in terms of people, but in  
terms of the rights of groups of men.

"Are we to have a Godless Amer-  
ica or a Godlike America?" asked  
Mr. Oxnam, who went on to de-  
clare that salvation for the "souls  
of America" lay with the young  
people, who should work to the  
end of becoming business men and  
women and educators with the end  
in view of seeing to it that Amer-  
ica shall use its great resources for  
the good of all people.

"The American," he con-  
cluded, "insists upon the rights of  
man."

PLAN BUSY WEEK  
FOR CANDIDATE

(SPECIAL REPORTER.)  
REIDLANDS, Oct. 5.—Friend  
William Richardson, Republican  
candidate for Governor, is to be the  
honor guest at a big dinner to be  
held here on Wednesday of next  
week at the Casa Loma Hotel.

He then will be in the city to be  
guests at the dinner and it is to  
be one of a series he is to attend  
in this section.

Mr. Richardson is to be at the  
Riverside Fair on Tuesday and  
that evening as president of the  
California Editorial Association.  
He is to be honored with a dinner  
at the Mission Inn by the Southern  
California Association, of which  
Paul W. Moore of Redlands is the  
president.

The candidate will, the next day,  
be guest at a luncheon at Home  
given by the Kiwanis Club there,  
will visit Banning and Beaumont.  
His trip through the state will  
begin Thursday and is to be spent  
in the west end of the country,  
Friday in Orange county and Sat-  
urday in Los Angeles, according to  
plans.

WANT UNION STATION

Santa Ana Merchants Boast for  
New Improvement

(SPECIAL REPORTER.)  
SANTA ANA, Oct. 5.—Asstition  
for a union railway station in Santa  
Ana was renewed today when di-  
rectors of the Merchants Associa-  
tion passed a resolution urging all  
other civic bodies to join them in  
a movement to bring about a  
union station, centrally located, and  
a credit to the city.

Stations are now operated sepa-  
rately by the Santa Fe and South-  
ern Pacific, while the Pacific Elec-  
tric has an uptown ticket office and  
a separate freight depot.

The early morning of the Union  
Pacific into Santa Ana, it is felt,  
makes this an opportune time to  
work for a desirable center for  
a station for all four rail lines.

MERCHANTS SELECT  
PASADENA HOTEL

WING OF GREEN TO BE USED  
AS HOSTELRY FOR COM-  
MERCIAL MEN

By a "Times" Staff Correspondent  
PASADENA, Oct. 5.—The Mer-  
chants Association committee ex-  
amining into the possibilities of a  
commercial hotel here have about  
decided that the east wing of the  
Hotel Green is the best site for  
the purpose. E. H. Munson, chair-  
man, said today the committee  
expects to report next week.

The lower floor of this wing is  
under charter to the Chamber of  
Commerce and the second floor to  
the University. The wing is an  
upper floor, it is believed, could  
be adapted to the purpose.

### German Church Ministers Hear Bishop Leonard

By a "Times" Staff Correspondent  
PASADENA, Oct. 5.—The Cal-  
ifornia conference of the German  
Methodist church opened a two-  
day session today at Emmanuel  
Methodist Church, Bishop  
Adna Wright Leonard of San  
Francisco in charge. Bishop  
Leonard declared in opening that  
Methodism was determined to put  
its \$100,000,000 centenary fund  
to work.

The Rev. Dr. G. Guth of San  
Francisco reported on conditions  
in Eastern States, where he said  
German Methodism was in a sur-  
prising condition in the transition  
period to an English-speaking  
church.

Tomorrow's meeting will be  
largely a devotional service. Ap-  
pointments of the session will  
not be announced till next Sunday.

RAY DISTRICT POLICE  
HUNT FOUR GUNMEN

OFFICERS FIRED UPON BY  
GANG SUSPECTED OF  
JEWEL ROBBERIES

By a "Times" Staff Correspondent  
VENICE, Oct. 5.—Ray district  
police have been notified to be on  
the lookout for a quartet of rob-  
bers who early this morning were  
surprised in the shadows of a  
building at the intersection of Sun-  
set Knoll and Coeur d'Alene ave-  
nue by Officer Klein of the local  
police force. Three men in the  
rue of shots.

Klein, who has been on the look-  
out for a band of robbers, said to  
have perpetrated the various  
jewel robberies in this vicinity re-  
cently, surprised a man sneaking  
along the shore of a house near  
Sunset Knoll. The man fled when  
he saw Klein, jumping into a wait-  
ing machine near by. Three men in  
the machine opened fire upon Klein.  
Klein returned the fire, but before  
he could reach the machine they  
had escaped.

COMMERCE CHAMBER  
HOLDS RALLY MEETING

(SPECIAL REPORTER.)  
HERMOGA BEACH, Oct. 5.—  
Five hundred members attended  
the reorganization banquet of the  
Commerce Chamber last night.  
James W. Foley was the principal  
speaker. The occasion of the ban-  
quet was the formal introduction  
of Joseph W. Tanner as the new  
commercial secretary of the cham-  
ber succeeding Walter E. McIlwain,  
whose resignation has just been  
accepted. A recent drive has net-  
ted more than 100 new members  
within the last week.

DORIS MAY HEROINE  
IN HER OWN HOME

She's a heroine in real life, is  
Doris May, film star. Anyhow that's  
what her husband, Wallace Mac-  
Donald, handsome young leading  
man, says. He should know. The  
beautiful young actress who has  
rescued heroes and children with-  
out number on the screen, has been  
doing a far less spectacular and a  
far more real act of devotion and  
heroism in nursing her husband  
back to health following a three  
month run of typhoid fever.

Now Wallace is sitting up in bed  
an hour or two a day, getting well  
rapidly, and he will all the credit  
to his fair young wife. "Doris May  
gave up two starring contracts, one  
with Robert Dole and one with  
an independent company, to nurse  
her husband."

"It is just eleven weeks," said  
MacDonald, "since I fainted with  
illness at the end of a hard day's  
work and my wonderful wife car-  
ried me to this bed to which I  
have been a prisoner ever since. I  
was so low that I find out now  
my nurses and doctor thought I  
would not recover. But now it's  
over and my wife and I are going  
for a couple of vacations badly  
needed by both of us before we go  
back to work. I can sit up an  
hour a day, and yesterday I took  
my first step."

"Doris has been a wonderful  
woman during my illness. She has  
made a slave of herself and has  
hardly left my bedside day or night,  
sitting up nights to soothe me when  
I was delirious, and going without  
food for days at a time when I  
was at my worst. She proved how  
wonderful a real, true wife can be."

WILL ARRANGE FOR  
"SALOME" RELEASE

Charles Bryant, director of  
the literary and musical work of  
the brilliant Russian star, went to  
New York a few days ago to com-  
plete final arrangements for the re-  
lease and distribution of the latest  
picture. Of the several chan-  
nels of distribution open to him, it  
is thought that the best choice  
United Artists, which releasing or-  
ganization has distributed Nasti-  
nova's "A Doll's House."

Prior to his departure Director  
Bryant arranged a "try-out" of  
"Salome" at Ocean Park, where the  
Rosemary Theatre was secured. No  
advance heraldry was indulged in,  
the only notice of the picture's  
coming being the screen announce-  
ment at the theatre on the day of  
evening prior to the preview.

In spite of this meager heralding,  
the Rosemary Theatre was packed  
to the doors and Manager Ray-  
mond willingly conceded the  
throne to the Russian star, who  
plan to give Los Angeles its first  
move and not by the routine fea-  
ture advertised. This fact was  
confirmed here, after the Nasti-  
nova creation had been shown, the  
audience left in a body, all except  
about thirty or thirty-five persons  
who remained to witness the ad-  
vertised picture.

TO SEND EXPLORERS

Two exploring expeditions are to  
be sent out from Los Angeles by  
Col. W. N. Selig to capture wild  
game to be brought back to the  
Selig Zoo, when it is located near  
spring and turned from a jungle  
land into an amusement park of  
which the school of games is the  
feature. The expeditions are to be  
only a unit. Col. Selig plans to  
send one expedition to South  
America to make a list of the  
Amazon in search of wild animals  
and another to the islands of the  
Malay straits. It is Col. Selig's  
plan to give Los Angeles a fine  
zoo in America. In the meantime,  
the local Jungland will be open  
for the day, and his wife will show  
the attitude of the south in regard  
to the Standard question.

## UNANIMITY FEATURED

Gamut Club Meeting in Great  
Success

Sounding a keynote of unanimity  
of purpose in the furtherance of  
the musical life of this city, the  
Gamut club held a meeting and  
entertainment last night at the  
clubhouse.

Several guests distinguished in  
the literary and musical world  
were present, including Carrie  
Jacobson, composer- pianist, and  
Robert Hughes, anchor-composer.  
Others among the invited guests  
included Miss Frances Goldwater,  
Mrs. Newcomb Prindle, Mrs.  
Carroll Elliott, Harry Miller,  
L. B. Crotty, T. J. Fitzgerald, Mrs.  
Armstrong and Sam Glass.

The Orpheus Four, did some  
very effective work. The personnel  
includes Sam Glass, tenor; Paul  
Adams, second tenor and accom-  
panist; E. M. Dudley, bass; and  
Vernon Campbell, baritone.

Vocal selections were offered by  
Miss Mabel Heine, dramatic soprano  
of New York; Robert S. Sargent,  
tenor, and M. S. de Lara, baritone.  
At the piano were S. F. McKelstra,  
Mrs. Henslow Robinson and Will  
Garraway.

Mr. and Mrs. J. Spencer Kelley,  
entertainers, also contributed.  
L. B. Bahrmer, president, pre-  
sided.

tion by the Pacific Coast Confer-  
ence heads of the East-West foot-  
ball game scheduled between Stan-  
ford and Pittsburg, December 30,  
was branded by Dr. W. F. Bar-  
row, director of physical educa-  
tion at the university here, as a  
jealous act on the part of the  
south, which is afraid of losing the  
annual New Year's day game.

Ralph La Porte, director of  
physical education at the Univer-  
sity of Southern California, left Los  
Angeles tonight for the Pacific  
Coast Conference, which is to be  
held in Portland, next Saturday.  
It is believed that La Porte is one  
of the most important delegates at  
the meeting as his vote will show  
the attitude of the south in regard  
to the Standard question.

TURDAY MORNING

ARMY MEN  
BREAK AIR  
RECORDS

(BY A. P. NIGHT WIRE.)  
SAN DIEGO, Oct. 5.—Hoped  
all known records for  
a heavier-than-air machine. Lieut. John A.  
Meady and Oakley Kelly, Army  
men, who started into the air  
in the giant monoplane T-3 early  
this morning, landed at Rock-  
well Field, their starting point, just  
before dark today, well ahead of  
the records they said, to have con-  
sidered their flight but for their de-  
cision to reach the ground before  
dark should make landing  
difficult.

The landing of the two aviators  
was the signal for a mighty chorus  
of cheers from practically all  
thousands in the harbor. When  
the plane circled down to the  
small army of spectators, the  
Rockwell Field force was waiting  
to greet them.

Lieut. R. G. Erwin, commandant  
Rockwell Field, soon after the  
landing, gave out the time  
the aviators had been aloft as  
15 minutes and 30 sec-  
onds. The official time for the  
flight was set down in the Rockwell  
records as 5:53 a.m. instead  
of 5:55 a.m. as unofficially given  
and the time of the flight  
was given officially as 5:11:30.

ROBERT'S KISS FIRST  
The aviators were covered with  
dew and rain when they stepped  
out of the big machine in which  
they had remained aloft, circling  
the air for practically two  
hours and a night. That did not  
deter them from kissing each other  
as they stepped out of the plane.  
Lieut. M. Benjamin MacReady,  
one of the aviators, who also  
was the first to kiss his wife, the  
first of his grimy cheek, and  
the other stood around, smiling  
at the way the wife was black  
with rain.

MacReady and Kelly  
were making the following  
statement:

"We were the wonderful Liberty  
which kept us up. There is  
nothing that this flight repre-  
sents to be the best and most  
important in the world. It is due  
to the development of Army aviation,<

The boy sat down and gazed absently out of the window; after a few moments he turned his head and looked at his father.

"Dad," he said, "I'm in love."

Rivett, senior, regarded him in incredulous amazement; for a second only.

"Babies have to go through nothing, too," he observed.

Jack said pleasantly, "Wouldn't you rather I came to you and told you about it?"

"Yes; a boy is all right who tells his parents. Who is the girl?"

"Silveta."

An unaccounted color dyed Mr. Rivett's pallid temples.

"Oh! Have you informed her?"

"Yes."

Rivett's teeth met under the olivaceous mustache, parted, met, and closed together; but his son saw only the jaw muscles move slightly in the lean face.

"Silveta is a—an interesting young girl," said Rivett with an effort; "but she is not one of my employees, and not the sort of woman I wish my son to marry."

"So she says," observed Jack, testily.

"You stay here until I've talked to your mother!" he barked, and went out slamming the door.

Jack sat down prepared to wait, but it was not five minutes before his father came in.

"I've seen your mother."

"Who says what?"

"Silvetti said exactly what you have just said—that she is your employee and her sense of honor will not permit her to listen to me."

"Oh! . . . She said that, did she?"

"Oh, yes. Did she tell you to tell me her answer?"

"No; she told me that if I uttered one word on the subject to her she would leave your service twenty-four hours."

"I don't want you to marry her," repeated his father doggedly. "Why?—once more."

"Because I know anything about her. She gambles."

"Dad, be square with me. Do you like her?"

"I like her sister."

"And Silvetti?"

"Yes, damn it, I do!"

Tack laughed.

"So do I," he said; "but she has fussed me."

"She knew enough to do it; she is a girl of sense. Certainly, I like her. She knows well enough that she has no right to encourage

## "PLENDID ISOLATION" AN IRDESCENT DREAM

British Banker on Problems of Finance; Favors Branches; Funding War Debt

BY T. S. DAYTON  
(SPECIALIST IN DISPATCHES)  
(Copyright, 1922, Public Ledger)

NEW YORK, Oct. 6.—In an interview the Rt. Hon. Reginald McKenna, formerly Chancellor of the Exchequer and holder of other important posts under the British government, and now chairman of the London Joint City and Midland Bank, discussed several important subjects that he did not touch in his address at the bankers' convention. He talked frankly, but carefully and deliberately regarding branch banking in this country, the funding of the British debt to America, the prospects of an American loan to Germany, German reparations, French finances and the "splendid isolation" of the United States.

"The United States, like all other countries, has had to go through a very trying time in the reconstruction period," he said. "Taking all the circumstances together this period has been more trying than that during the war. Your banks came through the war with great success, and I should say the Federal reserve system has had no small part in establishing your sound credit and a financial position which was secure as at any time in the history of American finance."

"I admire the public spirit of the great American bankers which enabled them, even at times when it meant loss to themselves, to face difficult positions in the public interest."

**BRANCH BANKING**  
Regarding branch banking in this country, McKenna repeated the question meditatively before he replied that branch banking abroad exists in the United States and that he had not sufficient knowledge of conditions to be able to form an opinion as to whether or not it would be advantageous. He added:

"I can say that in my own country, where conditions undoubtedly are very different, I regard branch banking as essential to the stability and public usefulness of the banks. So far as conditions in our two countries are similar, I believe that in your great aggregations of population in cities, it is difficult to believe that with that limitation the extension of the branch system would not be a success here."

**FUNDING WAR DEBT**  
"When do you think the debt between England and the United States may be funded?" he was asked.

"The commission is coming here this autumn to discuss the funding of the debt, but I don't think the conditions are even yet ripe for a definite funding to be agreed upon," replied Mr. McKenna. "After the meeting of the month there are still preliminary difficulties to be overcome, arising out of the limits placed upon the powers of the American commissioners by Congress. Parliament has placed no limit on the powers of the British commission. After all, the debt is a subject of interest to any one of the period of interest, as well as the creditor."

Mr. McKenna declined to discuss the question whether a twenty-five-year period would be too short for refunding, saying that was a matter for argument between the commissioners, and that both sides should have free hands in the conference.

The form of funding, when the act itself had been agreed upon, he said, would also be a matter for the commissioners to determine—whether it would be by issue of securities, or a transaction between the two governments.

The payment of the interest, he explained, would come from the exportable surplus arising from interest paid to British subjects on securities owned by them. "The value of foreign securities owned by British subjects," he said, "is not less than \$2,000,000,000 and not more than \$3,000,000,000. It would not be necessary to mobilize these securities to assure payments of interest and the sinking fund on the debt to America."

**PAYMENT IN GOLD**  
"The world's payments always take the form of gold. If gold is bought by England, say, in South Africa, it is bought there by the export of English goods. We cannot export our goods to the United States and pay you direct with goods, because the United States does not want our goods. We cannot export our goods to Germany and pay you direct with goods, because Germany does not want our goods. We cannot export our goods to the United States and pay you direct with goods, because the United States does not want our goods. We cannot export our goods to Germany and pay you direct with goods, because Germany does not want our goods."

**FOREIGN FINANCING**  
The aggregate of French investment in foreign countries, Mr. McKenna thought, was about \$6,000,000,000, chiefly in Russian and Turkish securities, with others in American, British dominions, etc.

## THE COUNTRY OVER REDISCOVERY OF FAR WEST

East Finally Awakens to Find Sun "Do Move"

Co-operation in Banking Circles Develops

New Harmony Enfoldment Includes Chicago

BY C. B. EVANS  
(SPECIALIST IN DISPATCHES)  
(Copyright, 1922, Public Ledger)

CHICAGO, Oct. 6.—The convention of the American Bankers' Association in New York this week is the most brilliant affair of the sort in the history of that organization and no doubt the most numerous attended. To the westward men of the address and other proceedings are much less important than the attitude toward this part of the country that was demonstrated by the local managers of the affair, marking as it does a change that has been going on for years past.

Something like that change is found in the welcome given to the West, doubtless also to the rest of the country. A special effort was made to manifest this attitude and it was so successful that many delegates received a telephone "how are you?" or some such expression almost at the moment they reached their quarters in the hotel.

Conversation with the bankers in this city shows that this spirit has risen to the point of almost perfect co-operation in financial affairs between western financial institutions and those of New York. This is particularly notable in the case of the issuance of new securities. Formerly Chicago banks selling new securities issued from New York were pretty well down the line. In these days the large banks here are actual participants in the underwriting, that is they become responsible for a share of the purchase of the securities.

A Chicago banker here said that the first price in two years one bank in this city has been an underwriter in sixty of these sales.

**FRESH BUYING MOVES COTTON**  
(SPECIALIST IN DISPATCHES)  
(Copyright, 1922, Public Ledger)

NEW YORK, Oct. 6.—The cotton market closed at a high level today, with a strong upward movement in the near future. The cotton market is now in a position to buy more cotton than it can handle. The cotton market is now in a position to buy more cotton than it can handle.

**CHICAGO EXALTED**  
Formerly Chicago was a subordinate rather than a co-operator and at times there has been considerable irritation between the two cities. The Chicago bankers in Chicago had reason to feel hurt because in a specially good promotion the Chicago bankers had been left out.

A New York banker here said that the first price in two years one bank in this city has been an underwriter in sixty of these sales.

**Wool Conditions**  
DECLARED HEALTHY  
(SPECIALIST IN DISPATCHES)  
(Copyright, 1922, Public Ledger)

BOSTON, Oct. 6.—Wool conditions are healthy and improving. Prices have been advancing conservatively and good progress is made in the trade in adjusting itself to the new tariff.

Domestic wools are stronger than a week ago. Medium domestic wools have the call and advances are noticeable. Export wools are not so strong. Prices for September were more than 6,000 pounds smaller for the same month last year.

Sales of domestic wool include a good volume of both fleeces and terminal wools. Fine wools of Ohio and Maine wool sold at 66 cents, three-eighths blood combing at 28 cents and quarter blood combing at 48 cents.

Current prices for Ohio and similar fleeces based on sales are 48 to 49 cents for fine unwashed combing, 52 cents for half-blood combing, 55 cents for three-eighths blood combing and 45 to 56 cents for quarter-blood combing.

Wool territory is strong and medium grades are materially higher. Fine and fine medium staple wools are in demand at \$1.15 to \$1.25, clean. The bulk of the trade in the territory has been in choice clothing wools, and \$1.10 to \$1.15 for less desirable lots and up to \$1.15 for good French combing.

Demand for medium territory is strong and stocks are greatly depleted. Most sellers are asking \$1.25 to \$1.30, clean, for three-eighths blood staple, but some are quoting 91 cents to \$1. Similar conditions exist in quarter blood. Some of the leaders have moved their stocks to the square to the 55-cent mark.

Stocks of twelve months Texas wool are in the market and it is said that nothing worth while is to be had at less than \$1.25.

Foreign wool returns amounted to 3,031,000 pounds for the week. The whole month of September, the relative of foreign wool amounted to 12,709,500, as against only 12,877,000 pounds in September last year.

## MINISTERS DISCUSS TURKS

Christendom in Near East Will Be Theme of Many Sermons Here Tomorrow

The subject of the Near East may be the beginning of a Moslem world war, said Dr. Herbert Booth Smith, pastor of the First Presbyterian Church, yesterday. "I understand the Moslems have been organizing since 1918. Their cry is that the Moslems must be destroyed, for they are the only Christian power in the Near East. On 300,000,000 Moslem fanatics, each armed with a sword, what this fact may mean to Christendom I will discuss tomorrow evening."

Dr. Smith will preach tomorrow morning at 11 o'clock, and at 7:30 p.m. at the First Presbyterian Church, on the subject of the Near East. He will also discuss the subject of the Near East at the First Presbyterian Church, on the subject of the Near East. He will also discuss the subject of the Near East at the First Presbyterian Church, on the subject of the Near East.

**QUICK JUSTICE FOR EMBEZZLER**  
Former Callesco Postmaster Asks Speedy Trial

Confesses Peculations and Eager to Plead

Troubles Date from Split With First Wife

The government yesterday found Frank W. Roach, the self-confessed embezzler of public funds as postmaster at Callesco, Cal., a pleasant man with whom to do business.

When arraigned before Commissioner Lenz, he admitted his guilt and sought no delay in the administration of justice. He asked to be indicted at once, given an early chance to plead guilty, and be allowed to take an early train for Leavenworth, Kan., to begin serving his time.

Roach was partly accommodated. Asst. U. S. Dist. Atty. Heron took his case before the Federal grand jury about the time Roach appeared before the court. But no report was made on the case during the day. The Callesco man will have to wait at least another week before starting East. His bond was fixed at \$10,000, but he was unable to raise it. He caused the \$10,000 that he is charged with having embezzled to be deposited with the U. S. marshal at Callesco. Roach was arrested by Postoffice Inspector James at Callesco, Colo., Roach was solicited advertisements on a country newspaper published there and putting in his spare time between press days setting type, washing rollers and sweeping out the office. He was at one time a printer.

He is not in a position to deny the amount of the shortage, and is willing to take the word of the inspector for it, but it is understood he left nothing but the bottom of the money drawer at the Callesco postoffice when he skipped by the light of the moon.

Soon after reaching Los Angeles in the custody of the officers, Roach wrote his wife to join him here. The wife, Mrs. Roach, was married last June. Roach was appointed postmaster at Callesco last February.

The trouble of Roach began with differences with his first wife, which resulted in a divorce being obtained by her through Judge Franklin J. Cole of Imperial county. Afterward he married Mrs. Roach.

**BROKEN HOMES**  
TEMPLE BAPTIST

Adapting the service to "National Better Homes Week," Dr. J. Whitcomb Brougher will preach at the Temple Baptist Church tomorrow evening on the subject "Broken Homes and How to Mend Them." In a prelude to the discourse Dr. Brougher will discuss the question "It is Right to Flirt" and "Why do Husbands Desert their Wives?" The morning hour Dr. Brougher will preach on "The Fickleness of Human Nature, or, 'Why People are so Changeable.' Exceptionally fine musical programs have been prepared for both services tomorrow, with Dr. Ray Hastings at the organ.

**ACTOR IN PULPIT**  
WILSHIRE CONGREGATIONAL

"An anxious to bring before the public another side of movie life than that which commonly gets publicity, and which the nation needs just now," this address toward the cinema world is taken by Dr. Frank Dyer, pastor of the Wilshire Congregational Church, who has invited speakers to speak before his congregation at the Ambassador Hotel Theater tomorrow evening. At Dr. Dyer's request "What There is in Religion Appeals to Me." In the same hour Dr. Dyer will speak on "My Message to Movie Stars." Movie fans are especially invited. The address tomorrow will be Miss Nellie Gothelf, a member of the Southern Seminary of Music.

**CHRISTADELPHIANS**  
Christadelphians of Southern California have arranged for a course of free lectures on the Bible, to be given at the church, 187 1/2 South Hill street. The first of the series will be given tomorrow evening when B. A. Warrender, of Birmingham, Eng., will speak on "The Miracle of Bible." Mr. Warrender is reported to have a deep understanding of scriptural prophecy and to be skillful in his interpretation of the deeper meanings of the great Book.

**MAP of NEAR EAST**  
IN COLORS SIZE 10 1/2 x 7 1/2

Accompanying the leading article in THE LITERARY DIGEST this week—"Why the Turk Comes Back to Europe"—is a full-page colored map of the area of the Near East upheaval. With the aid of this map you can see at a glance Smyrna and the hinterland; Thrace; the Zone of the Straits; the neutral zone which has been overrun by the Turkish troops; in fact, every point of interest mentioned in the daily news dispatches is presented in graphic form.

THE DIGEST, in addition to a complete summary of Turkey's advance into Europe, explains the rise of Kemal and his Turks; the Turk's first foothold in Europe; Who the Turkish Nationalists are; the Mohammedan World and Angora. There is also a clear picture of Smyrna before this great city was almost completely destroyed by fire.

**Girl Charged With Robbery of Dead Man**

Carmen Stewart, aged 23 years, who was present, according to the police, when Efeferio Mendez was shot and killed in front of his home at 291 Temple street September 25, not, by one of two men suspected of the crime, was arrested yesterday and charged with the robbery of the dead man.

Mendez was shot when he was returning home from work. He was shot in the chest and died shortly after.

The police are looking for the two men who were suspected of the crime. They are looking for a man named John L. Smith and a man named Richard C. Smith.

**Husband Proves Poor Diplomat, Wife Divorced**

William Conover was not diplomatic. In short, his habit of saying things to his wife, Jennie Ruth Conover, in the presence of friends embarrassed her. She was granted a divorce in Judge Sumner's court yesterday and among other grievances she mentioned against her husband was that when she had asked friends to ride with her in the family automobile he wanted to know if she proposed to use it as a truck. "When she gave a party at a hotel, he observed her look across the room at another party and said to her: 'If you want to go and sit with that man, go on!' he called her a fool when she was playing cards with friends because she did not play her hand as he thought she should."

### DEACON" SCOTT SHUTS OUT YANKEES; GIANTS TAKE TWO GAME LEAD

#### RECORDED MOUNDMAN HERO OF BIG SERIES

McGraw Gives "Castoff" Chance; Plodder More Than Makes Good

(BY A. P. NIGHT WRITER)

NEW YORK, Oct. 6.—A little more than three months ago, when the Yankees were in the thick of the season, Jack Scott, the pitcher, was a household name. He was the "castoff" pitcher, the one who was supposed to be a failure. But now, after a series of victories, he is the hero of the big series.

His aging arm today—and he followed orders. Earl Smith, the catcher, said afterward that every time he called for a high pitch, a high one came. Not once, he said, did Scott fail.

He used only a curve, but he had such remarkable control that always it went where Smith, whose knowledge of the Yankee batters and discerning judgment cannot be overestimated, ordered.

McGraw was voluble in his praise of Scott, and Miller Huggins, the beaten and crestfallen mentor of the Yankees, was not remiss.

Though Scott's marvelous pitching stood out today—as only the victory of the "under dog" can—two other players made the crowd a better tempered and more appreciative gathering than yesterday.

Babe Ruth, from whom so much is expected and so little comes, almost got into the headlines through a tilt with Groh, the Giants' third baseman. In a play in the fourth inning, Ruth tried to go from first to third when Fritsch, the Giants' pitcher, threw the ball to third and Heinie Groh was waiting for Ruth.

A NEAR SCRAP Caught under full headway, Ruth bumped into Groh, who stopped him, and then fell from the impact. Groh jumped up, shouting, and drew back his fist, but didn't strike. Umpire Hildebrand stepped between the two.

Babe came to the dugout in a roar of bores and a faint mingling of applause—maybe the applause was for Groh. It was repeated when Ruth came to bat, but the cheers and clapping were stronger.

Next time he crossed the field he stopped Groh and tried to explain what happened, but Groh refused to be approached in the heat of the moment.

Ward's boot of Bancroft's bounder paved the way for the two-run lead acquired by the Giants in the third inning, and as it turned out they were more than enough to win, as Scott turned back the Yankees' attack.

HOYT WAS THREATENED Hoyt was threatened in both the first and second innings, before the Giants broke through. Ward nipped a rally in the first, grabbing Meusel's hot drive toward right and doubling Fritsch at first after Groh and the Fordham flash had singled.

Young and Cunningham singled in the second, but Pep was caught by Bob Meusel's accurate throw, trying to stretch his single, and Cunningham was forced by Earl Smith for the third out.

Jack Scott started the Yankees downfall in the third with a single to center. Bancroft hit sharply to Ward, and when the second sacker kicked the ball into left field, Scott raced to third and Bancroft pulled up at second. Groh bounced one to center.

Dugan taking the throw and running down the pitcher. Bancroft, who had gotten to third on the play, scored on Fritsch's sacrifice hit to Witt in deep center. Groh advanced a base and came home on Irish Meusel's wallop to right. Young forced Meusel to end the inning.

SCORES IN SEVENTH Bancroft scored the third run in the seventh. Two were out and Hoyt had the Giant captain "in the hole" with two strikes and one ball, but walked him with three.

#### LINCOLN GRIDDERS PLAY TIE

Chaffey Junior College Eleven is Held Even by Davis' Seconds

Tommy Davis' Lincoln High second grid squad and the Chaffey Junior College eleven played a tie game yesterday on the Rallapitts' field that ended in a 7-to-7 tie. However, the crowd was not angry at the tie score and did not threaten to massacre the officials.

Chaffey's touchdown came in the final quarter when Goodman hid out and received a pass and ran to Lincoln's 14-yard line. A 7-yard buck and a penalty put the ball on Lincoln's 2-yard line, from where Bailey plunged over.

Jimmy McCus scored Lincoln's touchdown in the opening quarter when he received a 10-yard pass from Munyon on Chaffey's 30-yard line and then galloped over. Meusel treckleped over for the extra point.

#### MUGGSY LAUDS SCOTT

BY JOHN J. MCGRAW, Manager World's Champion Giants (EXCLUSIVE DISPATCH.)

POLO GROUNDS, Oct. 6.—Who, I do not want to pick any more agony on their injured feelings and woe of failure as prophesies.

YESTERDAY'S game was sufficient. I was so confident that I had a stronger pitching staff than I was generally credited with. I said so in my first article on the world series. It is needless to say that I was wrong.

AND THEY SAID HE WAS THROUGH Deacon John Scott resurrected and rejuvenated after all the major league pitchers regarded as ruined beyond repair, stood out there on the mound yesterday and made the Yankees look sick. He convinced all Doubting Thomases that he was still considered croaky.

#### TARS BOW TO TROJAN FRESHMEN

U.S.S. Arizona Men Are Not Able to Stand Fighting of Frosh Machine

University of Southern California freshmen scored a decisive victory over the eleven of the U.S.S. Arizona yesterday afternoon on the Trojan Field when they beat them 55-0 in a game that proved the strength of the freshmen as it never had been realized before.

Stark, end for the Trojans, made four of the touchdowns, while Dorsey, Naon and Loustolot and Scott also made runs over the line. One safety was scored by the Trojans in the first three minutes of play when the Gobs took the ball for the first time and by the slowness of the quarterback were caught behind the line with it and had to yield a couple of markers.

Loustolot was the light of the day, he ran more than 40 yards for one touchdown, but the referee came onto the field just after the play had been completed and decided that a man had been offside and Stark had to make the play all over again. The Gobs did not make more than 15 yards in the entire game as they lacked punch and light.

Sacco came into the ring with his right eye cut and held back in the first round. In the second, however, he opened up and after that he had Lavigne on the run all the time. George was holding on for dear life in the final stanza.

George Lee, sensational Chinese bantam of Sacramento, put on a big rally in the fourth round of his bout with Teddy Silva and got a draw after dropping the second and third rounds.

Sallor Ashmore stopped Jos Dunn of Oakland in the fourth, but not until after Dunn had showed he could take a lot of punishment. Kid Mende and Alex McDonald fought a wild battle with McDonald grabbing the verdict. Mende was all but murdered in the first, but he managed to stick out the terror affair. Alex showed a powerful wallop. Spec Wood and George Gilmore battled two good rounds, but Gilmore had to quit because of an injured arm.

Pete Herman and Ray Lee, also a Chinese scrapper, battled a good draw. Joey Murphy outstaged Willie Jackson in the curtain raiser.

Game Too One-Sided to be Very Interesting

BY HEYWOOD BROWN (EXCLUSIVE DISPATCH.)

NEW YORK, Oct. 6.—Jack Scott, a bit of baseball wreckage washed up by a friendly tide, pitched the Giants to an easy victory in the third game of the world's series today. The score was 3 to 0, and the count in the series now stands two for the Giants and none for the Yankees.

The game was too one-sided to be interesting. It was not half so thrilling as the story of Jack Scott. He held the Yankees to four hits, but only a few months ago he was a discard. The Braves sold him to the Cincinnati Reds at the end of last season. He reported with so sore a shoulder that he could not even toss a ball up to the plate. Accordingly he received his unconditional release.

Several famous surgeons told him that his case was hopeless. "You will never pitch again," was the verdict. Scott went back to his home in North Carolina to raise melons, but on the first lot he shipped to New York he made a profit of 75 cents. Accordingly he made up his mind that he must get back to baseball. Abandoning doctors he tried patios and massage.

Late in the season he drifted into New York at a time when McGraw's pitching staff was crumbling. "I'm all right again," said Scott. "Are you?" said McGraw, and because the plight of the Giants was desperate, the manager gave him a chance to go out on the diamond and answer the question. He did pretty well in the closing days of the season, but the suspicion that his arm might give under the strain always hovered over him. He was still considered croaky.

At the end of the first three innings Matty remarked: "Why, this is a pretty good game." (Continued on Second Page)

#### SAGEHENS AND TROJANS MEET

First Real Intercollegiate Game on Today

Claremont Gridiron Will be Scene of Battle

Fans Get Chance to Dope Out Eleven's Prospects

BY JOE PUNT

When the U.S.C. Trojans and the Pomona Sagehens get together in the first real intercollegiate football contest of the year at Claremont this afternoon the thousands of Southern California gridiron fans will have their first opportunity to gauge U.S.C.'s chances to win Pacific Coast honors and Pomona's to capture the Southern California Conference buntline.

The two teams in many ways occupy similar positions in their respective leagues, both being regarded as potential championship contenders and both, as yet, being comparatively untried. Pomona's two camps have emitted terrible yelps about injuries and other misfortunes.

GREEN BUT POWERFUL U.S.C. has a flock of veteran backs and a line which is, by comparison, green, but powerful. With Baker, Kincaid, Doley, Otto Anderson, Tiernan, Amor and Harold Galloway, Leahy, Riddle, Campbell and a herd of other demons there is no question about the class of the Trojans in the backfield. Henderson has more good experienced material behind the line than Pomona and all the other conference colleges put together.

In the line Henderson has Capt. Calland at guard, and Lindsey at center and Cummings at tackle, who have had previous varsity experience. In addition he has John Hawkins, transfer from Fullerton Junior College, Newman, a husky transfer from Sherman Indians, and two or three other huskies of less experience, including his Norman Anderson, the 215-pounder. Swade tackle. At end he has Pythian, Boice, Emmons and Milton, all for.

Did you know that the New Method Gas Range handled exclusively by the F. A. Clarke Co. Goodhousekeeping Shops, Inc. possesses interchangeable attachments? It's a mighty important feature because it means that you can attach a water heater to it or convert the top into six holes or eight holes. This frequently is a great convenience as you of course will realize. What about the offer made by the F. A. Clarke Co. in which they speak of a worth while reduction being made to the first three women visiting their stores on Monday morning and buying any electrical article over \$10? Better take advantage of it. Here are the addresses, 713 So. Bway, 6916 Holly Blvd. and 1200 W. 8th st.

Good Germ Babies

Do you know why babies have to be so particular about the milk they give us babies? It is this: Milk is just as good a food for germ babies as it is for human babies. They just love it. And when some germ families get into the milk—microbes! They get along so well on the food it furnishes them that even in one day they will multiply until there are billions of 'em.

You know what germs are. They are the littlest plants you ever could think of. You can't see them at all except under a powerful microscope. These little plants are just like the plants and vegetables that you really can see. Some are very good and some are very bad. You know how delicious mushrooms are. I never have tasted them yet but I know my Daddy just loves them and eating mushrooms had them for dinner I heard my family discussing the case of an entire family being killed because they had gathered and eaten mushrooms that belonged to a poisonous family of plants. Wasn't that awful?

Before I tell you about the bad germs, I think I shall tell you something about the good ones. That is a good plan I think, don't you, to know all about the good that is possible and then know enough about the bad so that we can avoid it and prevent it?

First I shall tell you about the good little germ plants in the soil called the nitrifying bacteria (bacteria is another name for germs). My, but they are important. They work on the nitrogen of the soil and air so that their big plant relations can grow.

If they did not do this work the poor big plants would die, all of them. Sometimes when the soil has very few of these wonderful germs, I think I shall tell you something about the good ones. That is a good plan I think, don't you, to know all about the good that is possible and then know enough about the bad so that we can avoid it and prevent it?

## POTATOES VALUABLE BASIC FOOD

Offset Acids Which Form From Other Dishes Often Used by Housewives

Well-known scientists have made careful experiments with the digestibility of potatoes and have found that almost 99 per cent of the starch or fuel value is utilized and a very large proportion of the fat and protein, although these elements exist in smaller quantities than starch.

Potatoes furnish one of the best and the most economical forms in which to eat the necessary alkaline or "base forming" food, that helps to offset the acid formed by other foods. Since the neutral quality of the blood is very important from a nutrition standpoint, it is easy to see that the "base" foods are of prime importance.

Rice is decidedly more given to acid forming than are potatoes. A normal portion of potato furnishes just about the proper amount of alkalinity needed to offset the acid formed by a normal portion of meat, whereas if the same quantity of rice were served instead of the potato there would be a decided preponderance of acid.

Another highly important quality of potatoes is the more recently established fact that they contain the anti-oxidative vitamins, and are thus valuable in that part of the diet which prevents the so-called deficiency diseases.

From the standpoint of quick assimilation baking is undoubtedly the most satisfactory method of preparing potatoes. The first advantage of this method is that it preserves the valuable salts that are lost when the potato is pared before cooking; the second is that by baking at a temperature of 180 to 200 degrees the cooking steam renders the starch mealy and digestible. New potatoes have been compared to tartaric fruit, in that they are not yet ready for assimilation.

LOS ANGELES, CALIFORNIA

Given the name of "Lightnin'" so reminiscent of Frank Bacon's delightful play of last season, surely the new "Nu-Tell" yarn just received by W. S. Heston, 523 W. 7th, will prove extremely popular. 27x54 and 36x72 the sizes, \$2.50 to \$3 the price.

There is no coverlet so cozy and warm in winter as a down quilt. Have it freshly re-covered by the Western Feather & Down Works, 1268 W. Washington st. 23253 is their phone number.

You would rather postpone washing your beloved sweater, treasured sport shirt, or silken lingerie a week than risk using any other soap than White King Washing Soap (in granule form). Because why? Well for this reason, the difference in the appearance of white garments is actually surprising, while garments are whiter after using this famous product of the L. A. Soap Company. Always remember though that its use is not limited to laundry work. It's one of the biggest adjuncts to cleaning everything in your home! It all means get a box to try at once.

## Hot Rolls With Real BUTTER

With hot rolls and biscuits you want real butter. Challenge Butter has a rich, fine, sweet flavor and is a most nourishing dairy product. Let a square melt on the roll or biscuit and spread it thick on the sandwich for the school lunch.

The four separately wrapped quarters in the pound carton you'll find quite a convenience. The quarter-pound is usually just the right size for the butter plate, leaving the rest of the pound wrapped and untouched until wanted.

BY CHEF A. L. WIMAN, M.C.A.

Many of our readers are preparing to entertain on Halloween and five have asked for menus and recipes for their suppers that evening. The table should be of polished, bare wood, the centerpiece should be a large, golden pumpkin set in a bed of autumn leaves and yellow chrysanthemums and filled with grapes, oranges and apples. Scatter autumn leaves over the table and stand little dolls dressed as brownies in nut-filled paper cases wound with strips of yellow and red ribbon. For the menu serve:

Devil's Broth  
(Consomme Royal)  
Assorted Sandwiches

Lobster a la Mephistopheles  
Orange and Pimiento Salad  
Cheese and Paprika Wafers  
Fortune Teller's Cake  
Unstrained Hot Tea

Nut Fudge  
Fresh Cider  
Consomme Royal

Place in the stock pot two pounds of chopped lower round of beef, two pounds of cracked shins, bones of beef, a three-pound knuckle of veal, one cut of chopped beef liver and the cleaned giblets and blanched feet of a chicken. Cover with cold water, add one tablespoon of salt, bring to a boil, cover and remove to a slow fire and simmer for two hours. Remove the skum that rises and add two chopped carrots, one small onion stuck with five whole cloves, a small bay leaf, half a dozen pepper corns and a bouquet made with a stalk of celery, four branches of parsley and one small leek. Simmer for six hours, strain through napkin, cool and remove the fat. For each four quarts of the stock chop fine one pound of shin beef free from fat and gristle and mix with it two finely chopped young carrots, one leek, one stalk of white celery, two tablespoons of finely chopped onion and the whites of two eggs. Mix thoroughly and place in kettle, stir constantly and add slowly four quarts of the cold stock. Keep stirring until it reaches a boil, stop stirring and let simmer for one hour. This mass will gather all of the small particles in the stock and one should be very careful not to break it up when the stock is strained through a double napkin.

### ROYAL CUSTARD

Serve the hot consomme in cups to which has been added a tablespoon of small cubes of royal custard. To make the royal custard beat slightly the yolks of five eggs and one egg white. Beat slowly into this six tablespoons of thin cream, half a teaspoon of salt, one-quarter of a teaspoon of white pepper and a dash of powdered sugar. Color this mixture with red color paste. Strain the custard into two buttered molds, place the molds in a pan of hot water and cook until firm. Cool and cut in cubes. Place equal parts of the red and yellow custard in each cup.

**LOBSTER MEMPSTOPHELES**  
A half of a medium California lobster should be served to each person. Split boiled lobsters, place in an oiled baking pan, shell side down, sprinkle with salt, paprika and melted butter. Place in a hot oven and brown. Baste with melted butter while browning.

**FORTUNE TELLER CAKES**  
Four one cup of boiling water, one cup of molasses, one cup of shortening and one cup of sugar. Let stand until cool, then two well-beaten eggs, four and a half cups of flour sifted with one teaspoon of baking soda, one teaspoon salt, two tablespoons of ground cinnamon and half a teaspoon of ground cloves. Bake in muffin pans and place in a box to break molds a coin, a ring and a thimble.

**CERROT SALAD**  
G. M. M. city, wants to know how to prepare carrot salad. The salad has many variations, but the one that we use at home is made by adding to two grated carrots, one cup of finely chopped white celery, one small head of lettuce, shredded, and half a cup of coarsely raisins. Dress with a lemon French dressing and served on lettuce leaves.

**MUFFINS AND GRavy**  
G. W. W. city, requests recipes of muffins with a popular brand of breakfast food and a gravy as served at one of the large resort hotels. The muffin recipe she will find on the package of breakfast food we cannot give in this column. As we never give recipes that require the use of advertised special ingredients. For the gravy, peel and slice fine three shallots and place in a saucepan with three tablespoons of good oil or wine vinegar; let boil five minutes, add half a cup of clear, brown meat gravy, and a seasoning of salt and pepper. Boil five minutes and serve hot.

**QUINCE JELLY**  
M. N. Glendale, asks for a recipe for quince jelly and we to know if she can do anything with some crystallized jam. There is nothing she can do with the jam except eat it. For the quince jelly select sound, ripe and yellow quinces. Wash and peel them, cut them in slices and place in a preserving kettle. Shake well and barely cover with cold water. Let boil until soft, then boil until they turn dark. Place in a jelly bag and let drip overnight. Place on the fire and boil quickly for twenty minutes. Remove from the fire and stir in one and a half cups of dry sugar to the fire and bring to boil, carefully remove the scum as it rises. Let boil until it will fall when a little is dropped on a cold plate. Pour into jelly glasses and seal when cold.

**NEW ENGLAND SANDWICH**  
A. R. Ventura, asks that we furnish a recipe for a sandwich made with cold-baked beans. Press two cups of cold-baked beans through a colander and add to them two stalks of white celery, finely chopped, one teaspoon of grated horseradish and a tablespoon of tomato catsup, mix well.
